

Bringing ideas to life

Full-service pharmaceutical,
nutraceutical and cosmetic
contract manufacturing

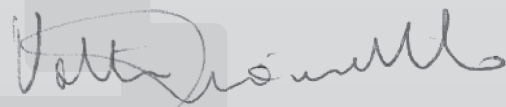

Bringing ideas to life

We built our Swiss pharmaceutical company on one idea born over 70 years ago, so we know first hand the enormous potential of ideas.

Our success, accumulated experience and expertise, means we are able to offer a complete range of manufacturing facilities and services to others who wish to bring their ideas to life. We are evolving as a viable business entity based on a consolidated business model and recognized as a leading, highly competitive, full service pharmaceutical and nutraceutical contract manufacturing and services company.

We offer a personalized service which encompasses the entire range of the value chain, from product development to distribution of finished goods. In addition we can provide you with a broad range of analytical and microbiological analyses services.

Ginsana Industrial Business (Ginsana IB) allows you to realize your idea quickly, thoroughly and effectively. We look forward to supporting you in reaching your goals.

Dr Valter Ganesello
Director of Operations

70 ^{Years}
of Excellence

What do we mean by Industrial Business?

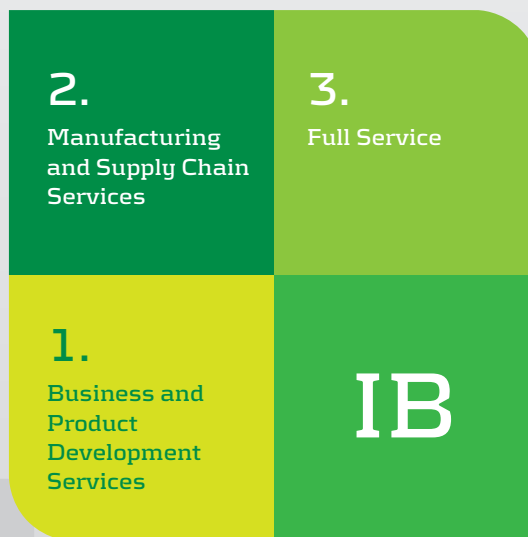

In essence, Ginsana IB provides many of the advantages of a large organization, such as state-of-the-art equipment and facilities, but with the highly efficient processes and personalized service of a small, more flexible organization.

This unique combination means you will benefit from the very latest technology, an extraordinary team of scientists, production, legal and administrative experts, and industry know-how that is second-to-none. On top of this is Ginsana IB's commitment to business process excellence and competitive pricing.

On the following pages, we will show you how.

Reliable partnering, inspiring opportunities

Our competencies encompass the entire range of the business process, ensuring you expert handling at every stage from research and development to product distribution.

3. Full service

Innovation

We can develop your ideas that help run your business while you focus on strategy, sales and growing your business. Just bringing ideas to life.

- Product portfolio management
- Customized and modular options
- Full value chain management
- Business process excellence & competitive prices

We provide a “Full Service Solution” enabling you to outsource all your scientific and operational services.

Manufacturing, the IB way

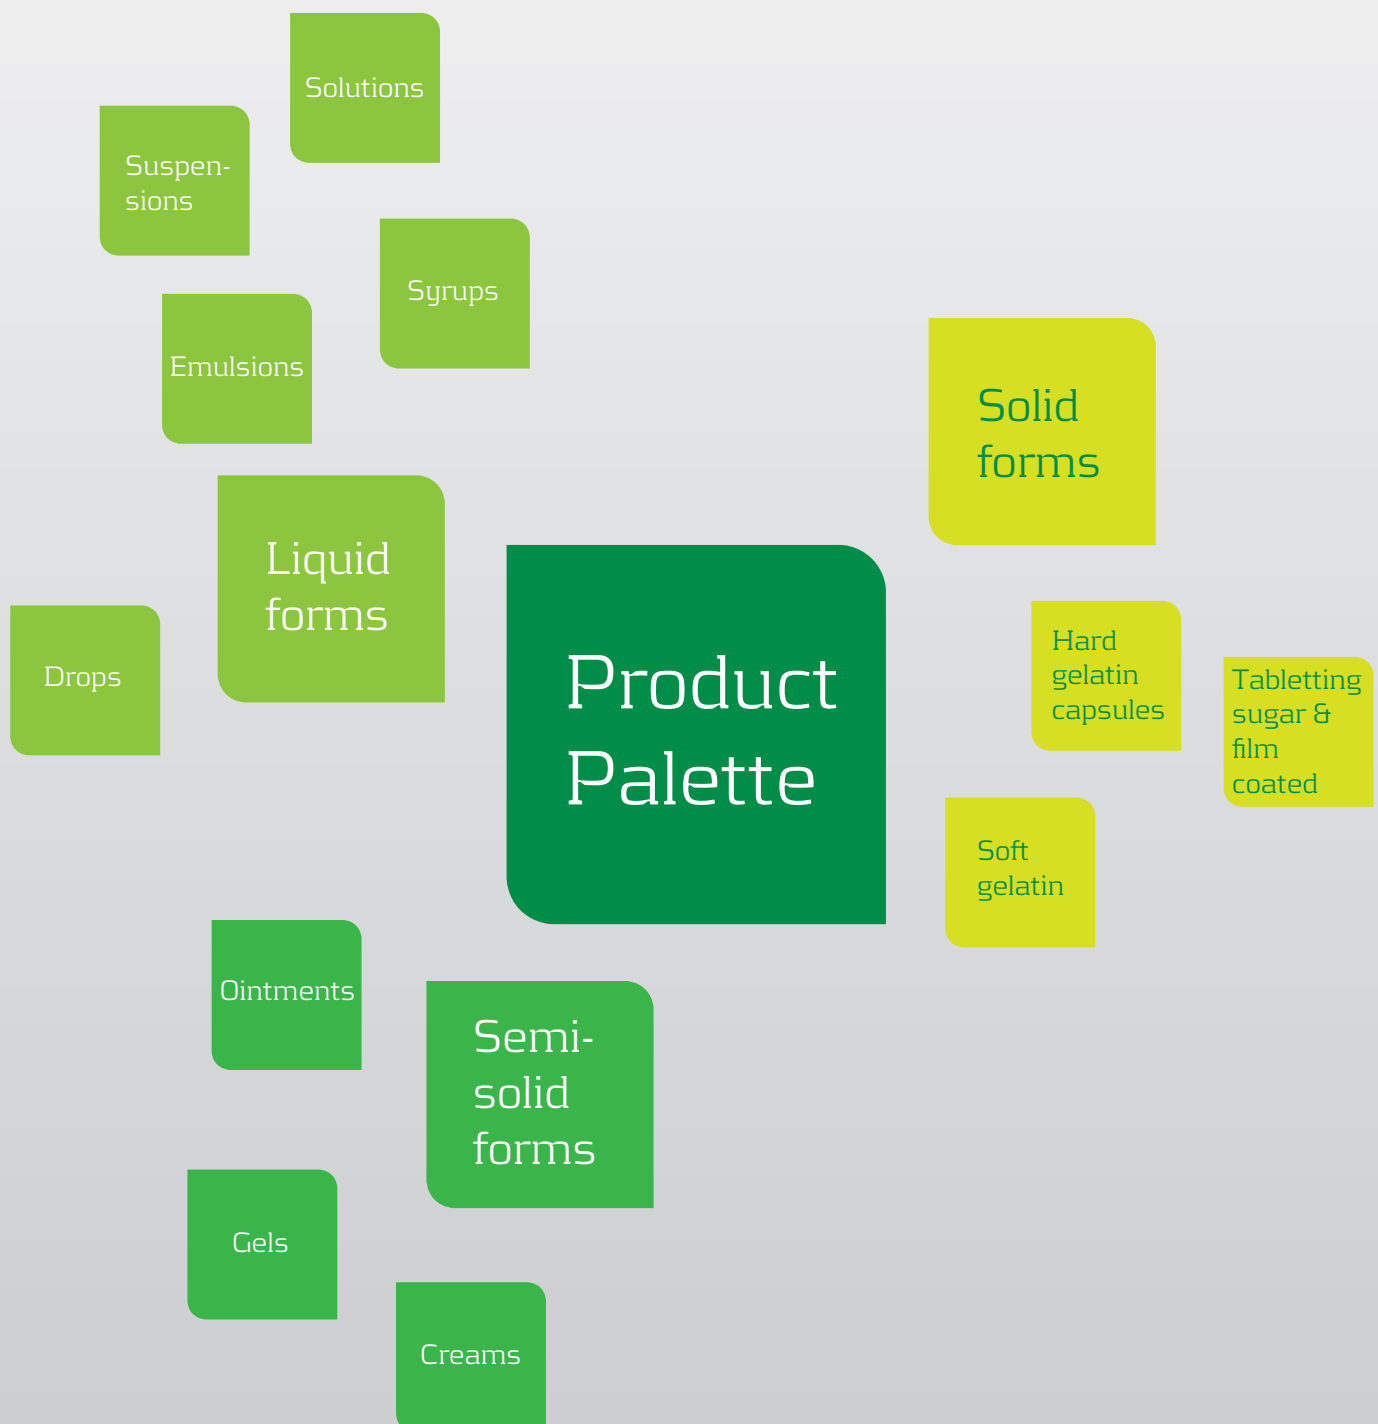

The three-part IB process is our particular way of approaching the market. As we know our clients often have different needs, you may choose to use just one, two or all phases of the process. You may also choose to use all three phases but emphasize one particular phase to complement your project's requirements.

We offer a wide selection of product capabilities.

Core product capabilities

With our first-class research and development and manufacturing facilities, we offer an extensive product range to suit your requirements.

Presentation counts

Of course, every product must be packaged using the safest, most effective and cost-efficient solution. We offer a variety of options that will ensure your product is looked after in the best possible way and meets relevant legislative expectations.

Facilities for current and future demands

We believe in the importance of staying abreast of the latest developments and technological advances. This commitment is reflected in our facilities that feature the very latest laboratory and production equipment.

We are seeking new ways to progress. Only those who have courage, initiative for new ideas, who are open to compete and are ready to offer expertise, competence, efficiency and effectiveness can deliver precisely the support you require.

Therefore bringing ideas to life.

We can offer our partners a long-term perspective and stability while adapting to a competitive, fast-changing environment.

A partner who cares

Choosing Ginsana IB to transform your idea into reality means you can rest assured your project will be handled with utmost diligence. Our sound industry experience, flexibility and innovation ensure the benefits of extensive know-how and proven solutions.
